

What Is a Shipping & Logistics Audit As Conducted by Azavar Audit Solutions, Inc.?

A shipping and logistics audit from Azavar Audit recovers missing funds owed to you by carriers and improves their accountability. We complete your audit using *our* resources not yours, and we provide a time & material or contingency & performance payment model. Your audit includes:

1. Industry Expertise

- We know e-Commerce – Our services focus on making our client more profitable
- Our team recovers credits and refunds and implements future savings averaging 8% improved margins for our clients

2. Technical Expertise

- We utilize industry-leading software to uncover outdated technologies and wasteful practices
- Our experts follow proprietary auditing methodologies and employ advanced data-mining technology

3. Strategic Relationships with Carriers

- We facilitate contract negotiations and get the results you demand
- Our relationships improve carrier accountability for service failures and operational inefficiencies

How can Azavar Audit Solutions return money to your community? Please call Kevin Lerash, Azavar Audit Membership Coordinator at **800-683-0800** or email him at klerash@azavar.com.

Do you need a specific audit that we have not mentioned? Please let us know – we are equipped to conduct many types of electronic audits.
